The Book of the Wars of the LORD, also known as the Book of Yahweh, is an ancient written book that existed during Moses' leadership over Israel. It is mentioned in the Book of Numbers and serves as a reference to explain Scriptural text and vice versa. Despite being referenced in the Bible, it is not considered a canonical book and lacks evidence of divine inspiration like other Scripture. The Book of the Wars of the LORD is a biblical book mentioned only once in the Bible, specifically in Numbers 21:14, which describes it as an anthology of poems detailing the Lord's victories over Israel's enemies. The book is believed to have contained poetic accounts of God's battles with various nations and its content has been subject to interpretation. Some scholars suggest that it may refer to the Book of the Wars of the LORD found in Exodus 17:14, while others propose alternative connections, such as the Book of Jasher or the Book of the Covenant. The existence of this book indicates a blending of written and oral traditions within the Pentateuchal documents, with varying theories regarding its composition date, ranging from the period of Moses to that of King David.
